

WASSIL CHUTTOO

Senior Software Developer in Test | Hybrid Developer & Automation QA

chelsea.fc.wass@hotmail.com • +230 5488 5938 • [linkedin.com/in/wassilchuttoo](https://www.linkedin.com/in/wassilchuttoo) • Vacoas, Mauritius

PROFESSIONAL SUMMARY

Senior Software Developer in Test with 4+ years building and scaling automation frameworks for enterprise HCM software. Equally comfortable writing production-quality code and designing robust test strategies — spanning Playwright, React, C#, and CI/CD pipelines. ISTQB-certified, PSM I Scrum Master, and a consistent driver of quality across the full software development lifecycle.

PROFESSIONAL EXPERIENCE

Software Developer in Test – Senior | *Dayforce* | Ebene, Mauritius Nov 2025 – Present

- Architect and own the end-to-end automation framework strategy for the enterprise HCM platform, setting coding standards and tooling decisions for a team of 5+ SDETs
- Lead sprint ceremonies as a certified Scrum Master — running planning, retrospectives, and daily stand-ups while actively removing cross-team blockers
- Champion shift-left testing by embedding QA earlier in the development cycle, reducing post-release defect rates
- Mentor junior and mid-level engineers through pair programming, code reviews, and structured feedback sessions
- Partner with Product and Engineering leadership to define acceptance criteria, test scope, and quality gates for major feature releases

Software Developer in Test III | *Dayforce* | Ebene, Mauritius Nov 2024 – Oct 2025

- Grew automation framework coverage by 30%+ by designing and integrating new Playwright test suites targeting high-risk user journeys
- Diagnosed and eliminated chronic test flakiness through systematic root-cause analysis and targeted refactoring in C# and TypeScript
- Automated regression pipelines in Azure DevOps CI/CD, reducing manual regression effort by approximately 40%
- Introduced ReqnRoll (BDD) test patterns to bridge communication between business stakeholders and engineering teams
- Acted as technical liaison between QA, development, and release management teams to align test delivery with sprint goals

Software Developer in Test | *Dayforce* | Ebene, Mauritius Jun 2022 – Oct 2024

- Built the foundational automation framework from the ground up using Playwright and Selenium, establishing patterns still in use today
- Developed reusable test libraries and data-driven test scripts in Java and C#, cutting test authoring time across the team
- Contributed to front-end feature development using React and TypeScript alongside automation duties, reflecting a true hybrid developer role
- Maintained consistently high E2E pass rates by proactively identifying test gaps and collaborating with developers on testability improvements
- Documented test architecture, onboarding guides, and runbooks in Confluence; managed defect lifecycle end-to-end in Jira

Software Developer in Test – Associate | *Dayforce* | Ebene, Mauritius Apr 2022 – May 2022

- Rapidly onboarded to the Playwright/Selenium automation stack, delivering first independent test contributions within weeks
- Collaborated with senior engineers to implement new automation patterns and improve framework coverage from day one

Test Engineer – Associate | *Accenture Technologies* | Ebene, Mauritius Aug 2021 – Mar 2022

- Designed comprehensive test cases, decision tables, and test conditions aligned to functional requirements and business rules
- Executed functional and regression test cycles, tracking and managing defects through their full lifecycle in Jira
- Built structured test datasets to support repeatable, reliable test execution across multiple environments
- Maintained test plans and managed execution runs on Azure DevOps across several concurrent release cycles

KEY ACHIEVEMENTS

- Promoted 3 times within Dayforce in under 3 years — from Associate to Senior SDET — reflecting consistent delivery and technical growth
- Reduced manual regression effort by ~40% through CI/CD pipeline automation in Azure DevOps
- Grew automation framework coverage by 30%+ in a single role tenure, directly improving release confidence
- Dual-track contributor: delivered both production React/TypeScript features and high-coverage automated test suites simultaneously
- Earned ISTQB CTFL and PSM I certifications while working full-time, demonstrating commitment to professional development

TECHNICAL SKILLS

Automation & Testing: Playwright, Selenium, SpecFlow, Cucumber, ReqnRoll, FitNesse, Postman

Languages & Frameworks: Java, C#, TypeScript, JavaScript, Python, React, SQL, jQuery, HTML, CSS

DevOps & Tools: Azure DevOps, GitHub, Jenkins, Docker, Jira, Confluence, PGAdmin, SSMS

Methodologies: Agile / Scrum, TDD, BDD, CI/CD, Shift-Left Testing

CERTIFICATIONS

ISTQB – Certified Tester Foundation Level (CTFL)	Sep 2023
Scrum.org – Professional Scrum Master™ I (PSM I)	Dec 2022

EDUCATION

BSc (Hons) Information Systems – University of Mauritius	Aug 2018 – Aug 2021
Certificate in IT – BCS	Apr 2017 – May 2021
HSC 'A' Level – Phoenix SSS	Nov 2016
SC 'O' Level – Phoenix SSS	Nov 2014
